

Algae Prevention Maintenance Kit

Algae prevention always begins with a well maintained pool and chemistry. Keeping pH and alkalinity in proper balance is as important as your sanitizer level (chlorine or bromine) along with filtration.

Use this kit as a weekly addition with your sanitizer to maintain a crystal clear pool!

Average 3 month usage*

Pools up to: 10,000 gallons

Initial Dose Rx Clear® 50% Algaecide-5 ¼ fl. oz.

Weekly dose-3-4 oz.
