

If you're tired of the ABCs of pool care,  
now it's as E-Z as 1... 2... 3!

## Step One

### Test & REVIVE

Take a water sample to your Authorized Dealer for testing. Treat pool water with **REVIVE!** (32 oz. up to 24,000 gallons) to remove phosphates, metals, debris and to activate the No Algae Guarantee.

***NOTE:** If algae is present, brush from walls, then shock with chlorine. Wait 24 hours, then proceed.*

## Step Two

### Vacuum, Clean Filter & Balance

Once debris completely settles (typically 24 hours), vacuum pool bottom, thoroughly clean pool filter, then balance pool water as follows:

**Calcium Hardness: 350 ppm**

**pH: 7.2 – 7.6**

**Total Alkalinity: 80-120 ppm**

Step Three

## E-Z Day

*Note: For portable “POP-UP” pools (less than 3,000 gallons), add one scoop of E-Z Pool in front of the return jet and adjust sanitizer level in accordance with product directions by placing 1" tablets in the middle of the cartridge filter.*

**Weekly:** REPEAT E-Z DAY... Just once a week!

*Note: For portable “POP-UP” pools (less than 3,000 gallons), be sure to rinse the cartridge filter each time you add 1" tabs.*

**Monthly:** Take a water sample to your Authorized Dealer for testing.

## Calendar

Sun	Mon	Tue	Wed	Thu	Fri	Sat

# E-Z POOL®

## E-Z POOL® CONCENTRATED POOL BLEND

Weekly Pool Care in a Bucket!™

**E-Z POOL** is a patented water care program that combines simplicity with incredible water quality in a once-a-week application. This specially blended, multi-tasking formula manages swimming pool water while eliminating the confusion of adding multiple chemicals every other day.

***E-Z POOL is available in 5, 10 and 20 lb pails***

### **Why is E-Z POOL the ultimate swimming pool water care program?**

- 1** The stable oxidizer immediately breaks down contaminants in the water to increase sanitizer effectiveness – resulting in clean, clear water.
- 2** The algae shield formula becomes more effective, the longer E-Z POOL is used.
- 3** E-Z POOL inhibits scale build-up and metallic staining on pool surfaces and equipment.
- 4** E-Z POOL clarifies and conditions to provide sparkling clear water that is soft to swim in and does not leave a harsh chemical residue on hair, skin, or bathing suits.
- 5** The uniquely blended formula creates stable and balanced pool water effectively reducing the need for excessive testing and unnecessary chemical additions.

**E-Z POOL** contains stable oxidizer, algae shield, clarifier, scale inhibitor, water conditioner and balancers (pH, Total Alkalinity, and Calcium Hardness) to keep swimming pool water clean, clear and trouble free. It provides a

PROACTIVE water care program that PREVENTS problems instead of treating them on a REACTIVE basis after they occur. E-Z POOL is compatible with chlorine, salt, bromine, UV and ozone, as well as traditional balancers and maintenance chemicals.

- Convenient and easy to use — just once a week!
- Oxygen-enriched water promotes a pristine swimming environment
- Less chemicals, less testing and less hassle!
- No waiting to SWIM!
- E-Z POOL provides the easiest, cleanest, and most convenient solution to swimming pool water care.

**\*E-Z POOL offers a  
No Algae Guarantee!**

The Program is simple: In the unlikely event a pool using E-Z POOL and REVIVE! gets algae, we will cover the cost to eliminate it!

\*Limited to reimbursement to dealer for cost of chlorine shock only to eliminate algae in a residential swimming pool. Requires verification of the E-Z POOL Startup program and proper application/dosage of E-Z POOL with a documented water test from an authorized dealer (proper water balance, chlorine minimum 1.0 and phosphates under 250 ppm).

# E-Z Winterizing

**E-Z POOL** simplifies seasonal pool closings / winterizing for

**TRADITIONAL CHLORINE, BROMINE, SALT WATER, or E-Z POOL** treated pools in one E-Z application.

No pre-treating or balancing needed — just add E-Z POOL to oxidize contaminants and protect from algae through the winter season. Spring openings are faster, water is clearer, and you can swim sooner with E-Z POOL winterizing.

- It's fast and simple – just add two-and-a-half times the weekly dosage of E-Z Pool and circulate the pump for at least 30 minutes prior to closing.

Spring pool opening after winterizing with E-Z POOL®.

Just vacuum, test and start E-Z POOL® program!

5-lb Pail Treats 20,000 Gallons
